We are pleased to announce the

9th International

Plastic Surgery Symposium

in Marbella!

After eight successful editions, we are excited once again to share knowledge with colleagues from across the globe. MIPSS has evolved into a major international event where plastic surgeons come together to share their candid experiences, discuss insights and challenges of new techniques, and contribute expert presentations in their fields.

The 2025 edition was our largest yet, welcoming over 150 attendees from around the world to Marbella, affirming the growing popularity of the event and our educational approach.

This event offers two and a half days of live surgeries and indepth presentations across eight scientific panels, designed to foster continuous and direct exchange between faculty and attendees.

To preserve the interactive, workshop-like nature of the event, attendance is capped at 190 participants.

This year's scientific program once again boasts an impressive array of inter- nationally recognized speakers, covering an expansive range of topics including plastic, aesthetic, and transgender surgery, non-surgical treatments, practice management, optimization, and marketing.

Day-1 Thursday, 03.09.2026

07:45 _Registration starts

08:20 _Welcome

08:30 - 13:00 _Live Surgery Session_1

Moderators: Mario Pelle Ceravolo & André Auersvald

1. Facelift _ Gerald O`Daniel
2. Pre pectoral B Lite implant with mastopexy _ Moustapha Hamdi

11:00 – 13:00 Special topic panel in parallel to Live surgery

13:00 - 14:00 _Lunch

Lunch Symposium (Non CME)

14:00 - 15:30 _Panel I _Emerging technologies & AI in Aesthetic Medicine

12 min / Lecture, 20 min Debate

Moderators: Can Cedidi & Nizag Kenig

1. Ethical Use of AI in Plastic Surgery: Risks and Accountability _ Nizag Kenig
2. Stem cells and exosomes - oncologic implications? _ Kai Schlaudraff
3. AI in Plastic Surgery: Hype, Slop or Revolution? _ Nizag Kenig
4. Technology and plastic surgery: 3D implants _ Jesus Benito Ruiz
5. Fat grafting - new strategies _ Kai Schlaudraff
6. Beauty Standards and Algorithmic Bias in the Age of AI _ Nizag Kenig

Debate on the role of AI and Chat GBT and its impact on modern aesthetic medicine – tendencies for 2026 _ All panelists & audience – 20 min

15:30 – 16:10 _Video Session 1 _Breast Surgery

15 min each video, 10 min discussion

Moderator: Jesus Benito Ruiz

1. Video 1 TBC _ Mario Pelle Ceravolo
2. Breast Reduction with inner Bra _ Moustapha Hamdi

16:10 -16:40 _Coffee Break

16:40 - 18:30 **_Panel II_** Breast

12 min / Lecture, 20 min Debate

Moderators: Moustapha Hamdi & Pier Luigi Canta

1. My data and experience with P4HB scaffold in Mastopexy _ **Ernesto Maria Buccheri**
2. Optimizing Implant-Based Breast Reconstruction with ADM - From Support to shaping _ **Can Cediti**
3. The use of Polyurethane implants in Augmentation Mastopexy-my rationale and experience _ **Moustapha Hamdi**
4. TBC _ **Mario Pelle Ceravolo**
5. No (less) implants needed ?Primary and secondary BA with Fat _ **Kai Kaye**
6. Mastopexy with lower pole advancement: My technique _ **Selahattin Özmen**
7. Mastopexy with Submuscular Autoprosthesis, my best choice for long term results _ **Pier Luigi Canta**

Debate on the role of implant technology and scaffolds in modern Mammoplasty – tendencies for 2026 regarding implant textures, Surfaces and gel cohesivity _ All panelists & audience – 20 min

18:30 **_Closure Day 1**

19:00 - 20:00 **_Welcome Cocktail Pool Terrace Hard Rock Hotel**

Day-2 Friday, 04.09.2026

07:45 _Registration starts

08:20 _Welcome

08:30 - 13:00 _Live Surgery Session_2

Moderators: Gerald O`Daniel & Erdem Tezel

1. Gliding Brow Lift /Excisional GBL with A-Net _ André Auersvald
2. Periorbital: Direct Brow lift and Bleph _ Mario Pelle Ceravolo

11:00 – 13:00 Special topic panel in parallel to Live surgery

13:00 - 14:00 _Lunch

Lunch Symposium (Non CME)

14:00 - 15:30 _Panel III _HD Liposuction & High definition body contouring

12 min / Lecture, 20 min Debate

Moderators: Kai Schlaudraff & Ahmad Saad

1. Intramuscular Gluteoplasty, the gold standard for safe and natural Gluteal Augmentation _ Pier Luigi Canta
2. Gynecomastia correction, principles and pitfalls, a tailored surgical approach _ Ernesto Maria Buccheri
3. Male chest liposculpture _ Ahmad Saad
4. HD Liposuction _ Kai Schlaudraff
5. Male chest enhancement with implants _ Jesus Benito Ruiz
6. The art and science of abdominal etching _ Ahmad Saad

Debate on Technology in Body contouring – tendencies for 2026 regarding new technologies, treatment standards, innovations _ All panelists & audience – 20 min

15:30 – 16:10 **_Video Session 2_** Body Contouring

15 min each video, 10 min discussion

Moderator: Ernesto Maria Buccheri

1. Thigh and Calves augmentation _ Jesus Benito Ruiz
2. Buttocks Sculpting – my approach _ Ahmad Saad

16:00 - 16:30 **_Coffee Break**

16:30 - 18:30 **_Panel IV_** Practice Management & Non-invasive Treatments

12 min / Lecture, 20 min Debate

Moderators: Renato Saltz & Kai Kaye

1. Balancing visibility and credibility in social media marketing for plastic surgeons _ Ernesto Maria Buccheri

7. Building a Med Spa - Challenges and chances- a 20 year review _ Renato Saltz

Debate on Challenges for private MED Spas and injector practices – tendencies for 2026 regarding Need for niche vs one-stop -shop and resulting Advantages/Challenges
_ All panelists & audience – 20 min

18:30 **_Closure Day 2**

21:00 **_Gala Dinner at Rooftop Pool Terrace Hard Rock Hotel**

Day-3 **Saturday**, 05.09.2026

08:30 _Registration

09:00 - 10:10 _Panel V _Massive weight loss and Abdominoplasty

12 min / Lecture, 20 min Debate

Moderators: Ernesto Maria Buccheri & Kai Schlaudraff

1. GLP-1 induced weight loss and the consequences? _ Kai Schlaudraff
2. Liposuction assisted 360 degree belt shaping _ Selahattin Özmen
3. Sculpting Confidence: The Transformative Power of Abdominoplasty _ Can Cediti
4. High Definition Abdominoplasty - SHARP Technique to achieve consistent results _ Rajat Gupta

Debate on Surgery of the core – tendencies for 2026 regarding Postbariatric patients, impact of GLP-1, and Muscle Management _ All panelists & audience – 20 min

10:10 - 10:35 _MIPSS Keynote Lecture 2026

10:35 - 11:00 _Coffee Break

11:00 - 13:00 _Panel VI _Next generation Face

12 min / Lecture, 20 min Debate

Moderators: Mario Pelle Ceravolo & Gerald O`Daniel

1. Endoscopic Hybrid Facelift : Endoscopic Facelift made easier _ Mirza Firat
2. Artistry in facelift beyond the deep plane: an algorithm for technique choice _ Gerald O`Daniel
3. TBC _ Mario Pelle Ceravolo
4. The Full Neck Concept: Advanced Strategies in Deep Neck Contouring _ André Auersvald
5. The full SMAS concept _ Renato Saltz
6. Beautification: face surgery for young patients _ Erdem Tezel
7. Temporal Face Lift: Surgical anatomy, indications and patient selection _ Hakan Şirinoğlu
8. Buccal fat pad herniation: the perfect facial augmentation flap and most under rated cause of lower facial aging _ Gerald O`Daniel

Debate on Facelift techniques – tendencies for 2026 regarding Deep plane vs. Superficial plane vs endoscopic, invasive vs conversative _ All panelists & audience – 20 min

13:00 - 14:00 _Lunch

Lunch Symposium (Non CME)

14:00 – 14:45 _Video Session 3_Face

15 min each video, 10 min discussion

Moderator: Hakan Şirinoğlu

1. Keypoints in Total Composite Deep plane dissection of the Face _ Mirza Firat
2. Male Facelift: Tailored Techniques for Natural, Masculine Results _ André Auersvald

14:45 - 16:00 _Panel VII _Cutting Edge Eyes & Brow

12 min / Lecture, 20 min Debate

Moderators: Beatriz Berenguer & André Auersvald

1. Versatility of Transconjunctival Blepharoplasty - tips and tricks to ensure success _ Rajat Gupta
2. Surgical and Non-surgical periorbital rejuvenation _ Selahattin Özmen
3. Endo Deep Plane vs Extended Gliding Brow Lift, the best option in minimally invasive Facial Surgery _ Pier Luigi Canta
4. Excisional GBL _ André Auersvald
5. 10 years of Forehead Reduction _ Beatriz Berenguer

Debate on Periorbital rejuvenation – tendencies for 2026 regarding endoscopic vs. open, Eyes vs. brow _ All panelists & audience - 20 min

16:00 - 16:30 _Coffee Break

16:30 - 17:50 **_Panel VIII_** Advanced Nose and Lip

12 min / Lecture, 20 min Debate

Moderators: Nazim Çerkeş & Barış Çakır

1. The Art of the Lip Lift: Precision, Balance, and Natural Results _ André Auersvald
2. Polygon Tip Surgery _ Barış Çakır
3. Tip oriented closed rhinoplasty and septal extension _ Erdem Tezel
4. The Influence of the Pitanguy Ligament on the Supratip Break Point in Open Rhinoplasty _ Hakan Şirinoğlu
5. Alar base surgery: nuances and techniques _ Nazim Çerkeş

Debate on the role of the Lip-nose junction for aesthetics – tendencies for 2026 regarding Lip lift and Nose - All panelists & audience - 20 min

17:50 – 18:30 **_Video Session 4_** Nose

15 min each video, 10 min discussion

Moderator: Selahattin Özmen

1. Open structural rhinoplasty; how to achieve a smooth dorsum _ Nazim Çerkeş
2. Dorsal preservation Surgery _ Barış Çakır

18:30 **_Adjournment and Closing Remarks_** Kai Kaye

20:30 **_Faculty Dinner**

WORKSHOP

Location: Ocean Clinic, Calle Africa 2, 4th floor

Theoretical part will be available online from 1 month before until 3 months after the workshop for review.

Instructors: [Gabriela Casabona](#)

Wednesday, 02.09.2026

10:00 – 17:00 **_Workshop I_ Haute Sculpture: Cadaver +
USG Course**

The objective of this course is to introduce tested and approved techniques (forehead augmentation, periocular, temple, chin, jawline, and lips) used by the experts using the biomimetic concept: selection of the techniques according to the product and layer injected.

The cadaver experience give confidence to the participants to use a new technique or improve precision in an already known one.

The USG live demo guided injection, in parallel, solidify and bring credibility to the use of the techniques and is proof of the Biomimetic concept.

This course is addressed to whom want to enhance anatomical knowledge injectors.
